1967

The Department of Industrial Development, Trade, and Commerce is *ready* to assist you—

- on plant location, and can provide specific information on planned industrial sites and other requirements.
- in providing composite industrial maps showing land zoned for heavy and light industry in the Vancouver metropolitan area and other areas of British Columbia.
- in obtaining information regarding source of supply for raw materials.
- in exploring export markets for goods manufactured in British Columbia.
- in obtaining reliable agents for manufacturers and exporters wishing representation in British Columbia.
- in providing information on the services offered by the British Columbia Research Council concerning industrial and scientific research.
- in the analysis of market research problems.
- in furnishing regular statements relating to current economic conditions.
- in the preparation and analysis of freight-rate material.
- in providing external trade statistics to exporters and importers and interested businessmen.
- in making surveys of an economic or statistical nature.

1964	1,624,604,000	563,314,000	1,122,400,000
1965	1,623,897,000	661,861,000	1,218,900,000
1966	1,803,481,000	726,152,000	1,317,400,000

[1] Includes all Canadian products exported through British Columbia customs ports, irrespective of Province of origin.
[2] Includes all products imported through British Columbia customs ports, irrespective of Province of destination.

Introduction

LEGISLATIVE LIBRARY
WITHDRAWN

THE British Columbia Wholesale Directory, when used along with the British Columbia Manufacturer's Directory, is an excellent source of information on products available in British Columbia.

The British Columbia Wholesale Directory lists alphabetically wholesalers and distributors, their main office address, and branch offices where applicable. An exception was made in the case of petroleum distributors as it was found that they maintain agents in nearly every community in the Province. The products handled by these firms are listed alphabetically in Part II. Importers are listed in Part III and, where possible, the countries from which they import are also listed. Exporters are listed in Part IV and manufacturers' agents in Part V. No attempt was made to list products for the importers, exporters, and manufacturers' agents as the response to this questionnaire revealed that most firms were restricted in their product range only by market demand. Primary source information was used in Parts I to IV as far as possible. The list of manufacturers' agents was gathered from secondary sources.

An employment indicator is included in the alphabetical listing of firm names. The coding is detailed on the lead page of the relevant parts.

We would like to extend our appreciation to those firms answering our questionnaire, thus making this publication possible. We wish to thank also Messrs. H. Brawn and G. M. Hayes for their thoroughness in the preparation of this Directory; Mr. B. Warburton, under whose general direction it was carried out; and the Data Processing Division of the Department for its assistance.

M. H. A. GLOVER,

Director of the Bureau of Economics and Statistics,
Department of Industrial Development,
Trade, and Commerce

Parliament Buildings,
Victoria, B.C.

September, 1967
